EDUCATION

- 07/2017 - 07/2021
UNIVERSITY OF ENGINEERING & TECHNOLOGY (UET-VNU)
- Computer science

SKILLS

- Front-end: HTML5, Js (ES6+), Redux, TypeScript, Reactjs, Next.js, MUI, Tailwind CSS, Ant design, Bootstrap, Styled Components
- Back-end: Nextjs, Expressjs, Django, Flask
- Real-Time Communication: Twilio, Agora (for chat, calling, real-time features)
- Payment Integrations: PayPal, Stripe, VNPay
- Version Control: GitLab, GitHub
- Collaboration Tools: Jira, Trello, Slack, Asana
- Agile Methodologies: Scrum

NGUYEN TRONG NGHIA

FULL STACK DEVELOPER

PROFILE

Skilled Front-End Developer with over 3 years of experience building high-performance web apps. Proficient in JavaScript, React, NextJS, and modern front-end technologies. Expert in creating responsive, accessible, and user-friendly interfaces, with a focus on best practices, performance optimization, and teamwork to deliver scalable solutions. Additionally experienced in developing APIs with ExpressJS, Django, and Flask.

PROFESSIONAL EXPERIENCE

- Freshdi** 07/2021 - 07/2023, 10/2024 - PRESENT
Full stack developer
 - Lead the development of scalable web applications using React, MUI, Redux and TypeScript to build a global marketplace to help buyers and suppliers connect with each other.
 - Collaborated closely with UX/UI designers and backend teams to develop user-friendly, responsive, and scalable web applications.
 - Optimized the performance of web applications through code splitting, lazy loading, and efficient state management.
 - Reviews code to ensure adherence to best practices and maintain code quality.
 - Work closely with backend teams to integrate APIs, ensuring seamless data flow between frontend and backend services.
 - Enhanced the website's SEO through keyword optimization and technical improvements, leading to increased organic traffic and better Google indexing.
- Phoenixunity** 10/2023 - 10/2024
Front-end developer
 - Utilized technologies such as ReactJS, Ant Design, Tailwind css, Redux and NextJS across various projects for foreign partners such as Australia and Brazil.
 - Ensure adherence to coding standards and best practices, fostering a collaborative environment for feedback and improvement, which enhanced code quality, maintainability, and scalability.
 - Implemented code optimizations by analyzing performance bottlenecks and refactoring critical components, using techniques like code splitting and lazy loading to reduce load times and improve responsiveness, resulting in a smoother user experience and decreased resource consumption.
- VTI Academy** 07/2023 - 02/2024
Mentor(part-time)
 - Instructor for both basic and advanced web programming courses, covering topics like HTML5, CSS3, JavaScript, and ReactJS.
 - Provided personalized mentorship, giving students feedback on coding assignments, and guiding them through debugging and problem-solving techniques.
 - Developed a Node.js server using the ExpressJS framework to provide real-time API services and backend support for the front-end course projects.
- UET UNITED** 08/2020 - 10/2020
Intern
 - Built a bot to crawl data, trained a machine learning model, and created the image recognition interface.
 - Developed a Machine Learning model and a web application for detecting banned images using Pytorch, CNN, Scrapy, Flask and Bootstrap, JQuery for UI.

MISA

06/2020 - 08/2020

Intern

- Built responsive front-end interfaces with JavaScript, CSS3, JQuery and integrated back-end services using .NET, Entity Framework (C#), and SQL Server.

PERSONAL PROJECTS

- **Portfolio Website:** Built with Next.js, Tailwind CSS, MUI, and TypeScript. Developed UI, responsive design, and handled testing. [Demo](#)
- **Ecommerce Website:** Full-stack app using Next.js, Prisma, MongoDB, JWT (Back-end), and MUI, Tailwind CSS, Redux (Front-end). Created DB, APIs, and core UI components. [Demo](#)
- **Account Management App:** Used Express.js, MySQL (Back-end), and React.js, Styled-components (Front-end). Built DB, APIs, and project interface.
- Other Projects: NEU landing page (React.js, MUI), barcode scanning (Tkinter, MySQL), weather app, todo app, wine store (Django, React.js).
